

## General terms and conditions of equipment rental of Valofirma and Kamerafirma

### THE RENTAL AND DELIVERY TERMS AND CONDITIONS OF FILM EQUIPMENT GENERAL RENTAL TERMS

#### 1. Field of application and the parties

These general terms are applied between Valofirma The Light House Ltd. and Kamerafirma The Camera House (later referred to as "The Company") and its light, camera and grip equipment and studios and vehicles (later referred to as "Equipment") and the company or private person (later referred to as "The Customer"). The Company and the Customer (later referred to as "The Parties") will always make a detailed and separate contract.

#### 2. The subject of the Contract

The Customer rents Equipment from The Company. The Parties will agree on the Equipment case-by-case and the contract will be presented as a written document for each rental event. The Customer agrees to rent the Equipment according to these general terms and conditions.

The Company will release the rented Equipment to The Customer in appropriate operational condition, serviced and inspected unless otherwise agreed with The Customer.

In these general terms and conditions of rental, "The Equipment" means all filming equipment and other related equipment, accessories, materials, vehicles and generators rented out or delivered by The Company.

The contract means the mutual agreement between The Company and The Customer. The contract defines the rented equipment, sales and other agreed-upon services according to the general rental terms.

#### 3. A binding rental

When The Customer accepts the offer made by The Company, either verbally or in writing, a binding reservation is made and a contract is formed between the parties concerning the rental of the equipment. The contract is confirmed separately with signatures or via email case-by-case concerning each rental. If an actual offer is not made, the confirmed reservation and the contract between the parties is made when The Customer makes a verbal or written reservation for the equipment rented to The Customer. The Company then confirms the reservation either verbally or in writing.

#### 4. Rental period

The Customer agrees to rent the Equipment stipulated in the contract for the rental period, which is always mutually agreed upon separately for each rental.

The rented Equipment is at the disposal of The Customer on the first day stated in the contract at 0730 AM, unless otherwise agreed. The Customer agrees to return the Equipment by 0730 AM on the morning following the last day of the agreed rental period.

For example; if the last date of the mutually agreed rental period is 5.9., the Customer is obliged to return the equipment on 6.9. at 07.30 AM at the latest, if not otherwise agreed.

The Customer has the right to pick up the Equipment later than agreed in the contract and return the Equipment earlier than agreed in the contract. However, this doesn't reduce the number of previously agreed rental days for the Equipment.

The Customer is responsible for the Equipment in case of damage or loss from the moment of Delivery inspection (see chapter 7. Delivery inspection ) until the return of The Equipment.

#### 5. Rental and other fees

The rental prices are specified in a separate price list. The details on all of the Equipment rented is presented in the equipment list; a separate document drawn out between the parties.

The Customer agrees to pay the rental fees for the Equipment rented and the materials purchased as presented in the detailed equipment list.

The Company charges 50 percent of the rental price of the Equipment for transport days, if not otherwise agreed.

#### 6. Invoicing and terms of payment

The Customer is obliged to pay the rental fees and other fees against the invoice. The payment is due within 14 days unless otherwise agreed.

The payment schedule is based on the length of the rental period. If the rental period is seven ( $\leq 7$ ) days or less, the invoicing happens in one installment. If the rental period is more than seven ( $> 7$ ) days, the payment schedule is agreed between the parties case-by-case.

Possible advance payments are agreed upon separately between the parties case-by-case.

The interest on unpaid overdue payments is 13 percent. In addition, The Customer is responsible for any possible expenses from collecting receivables.

If The Customer has given The Company a collateral (a guarantee) to fulfill these general terms or for some other reasons to fulfill the obligations of The Customer, The Company has the right to capitalize the collateral in a way The Company sees fit, considering the stipulations as dictated by law concerning capitalizing a collateral.

#### 7. Delivery inspection

The Customer is obliged to inspect the rented Equipment immediately upon delivery in a professional manner, to make sure everything is operational (later referred to as "Delivery inspection").

The Customer is obliged to inform The Company of all faults or shortcomings revealed by the Delivery Inspection. If The Customer doesn't make the fault or shortcoming known to The

Company, the liability of compensation for the faulty or insufficient equipment moves to The Customer.

If an equipment fault or shortcoming is found in the Delivery Inspection, The Company is obliged to offer The Customer a working equipment or fix the fault before the agreed rental period starts or in a reasonable time after the rental period has started. If the fault or shortcoming has happened because of the actions of The Customer during the Delivery Inspection, The Company is not obliged to offer an equivalent product to replace the faulty one.

The Company is not responsible for damage due to a fault or a shortcoming The Customer should have noticed during the Delivery Inspection.

The Customer accepts the Equipment in the condition it is at the moment of the Delivery Inspection.

The Equipment will be rented in its entirety without the included guarantee of function.

If The Customer fails to inform The Company about the faults or damages within the time period as stated above, the signed equipment list is considered as an evidence of the fact that the Equipment delivered was in operational condition and in accordance with the contract. This also means that The Customer is obliged to pay the rental fee to The Company as stipulated in the Contract.

If the faults or shortcomings appear later during the rental period and if the faults or shortcomings are of such nature that The Customer should have found them out in the Delivery Inspection, The Customer is obliged to deliver the Equipment to the Company or to a place dictated by The Company, to be replaced or repaired.
