

THE TRAILER COMPANY

Basecamp trailers for the needs of television & feature film productions and the event industry in the Nordic and Baltic countries.

About Us

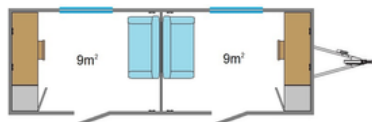

- The Trailer Company is your number one source for film, TV, and event production rental trailers in the Nordic and the Baltic countries. We are part of Valofirma – The Light House, Finland's largest film equipment rental house. Valofirma – The Light House offers equipment, crew, stages, trailers and location services.
- We have several fleets of basecamp trailers available for hire including 2 and 3 Way trailers, Production offices, Catering trailers, Costume trailers, Make-up trailers, Honey Wagons, and Generators. Our fleets are meticulously maintained to meet industry requirements, compliance, and reliability.
- Trailers can also be converted to suit the needs of our customers. For example, production office trailers can be converted into artist trailers.
- Trailers are available individually or as an entire basecamp of trailers, staff, planned location moves, and all necessary gear in one neat package. Please note that packages are the most cost efficient for customers and sustainable for the environment.
- Trailers can be delivered directly to your location, both in Finland and abroad. The safety and reliability of our trailers are paramount to us – from subzero arctic blizzards to the heat waves of summer.
- A full walk through is given to each customer during pick up of the trailers and written instructions for operation can be found inside each trailer.
- Customer service is one of our top priorities, as is reflected in our stellar reputation throughout decades in the film industry. We ensure a high standard of quality in both service and equipment levels. Please do not hesitate to contact us regarding questions or inquiries about packages.

2 Way Trailer

Specs

- Width 8,7m
- Height 3,23m
- Depth 2,5m
- Weight 1842 kg

Features
